STRIP QWIKLINK SERIES

STRIP PRODUCT FEATURES

QWIKLINK Connection System

QWIKLINK Connector

QWIKLINK Cable

QWIKLINK Sensor

The QWIKLINK connection system uses the latest in toolless technology to easily and seamlessly connect up to 64' of fixtures. The QWIKLINK connector provides a line voltage and 0-10V dimming connection between fixtures. The QWIKLINK cable comes in two lengths (7.9in. & 5ft.) and allows for angled and distant fixture connection. The QWIKLINK sensor integrates with a single fixture or an entire row for occupancy sensing and dimming.

Versatile Installation

Removable light engine with safety cables for easy installation

Installation Features

- Wiring Quick Connectors (x5)
- Back Knockouts (x4)
- Side Knockouts (x4)
- Integrated Cable Clamps (x2)
- QWIKLINK Sockets (x2)
- Back Screw Mounts (x3)
- Suspension Mounts (x2)

Each STRIP fixture installs quickly and easily. The light engine safety cable allows the whole product to be installed at once. Multiple knockouts located on each fixture allow for flexibility when wiring, regardless if the main input enters from the back or side of the product. All wiring is done using quick connectors, including 0-10V dimming, to save time during installation. Each STRIP fixture can be surface mounted using a J-box plate or suspended using aircraft cables.

STRIP PRODUCT FEATURES

Even Distribution & Uplighting

The STRIP QWIKLINK Series provides even distribution and up to 10% uplighting to limit the “cave effect” associated with other fixtures with more direct lighting. The smooth light output helps create a visually comfortable and secure environment.
